REMARKS.

We do not think it necessary to particularize the merits and demerits of the teachers or schools in this report.

Where a school has been a success, and the teacher has met his or her duty in a competent manner and discharged their obligation without stint and proved themselves fitted both in tact and tallent for the position as teacher, such teachers are known and appreciated by the board of education, by parents, and respected by pupils; and we are glad to say that some of our teachers have been very complete in these qualifications, and will be heard from in the future of our schools, while others have been only passably fair as teachers.

Many who have applied for situations as teachers the past year have been rejected. We want to say to all who are over anxious to become teachers, don't think that nature intended you just for a teacher of our common schools and for nothing else; for nature sometimes makes mistakes, and when she does she produces no essential or specific type in anything, so it is with those would be teachers who think nature has done the one important thing for them, consequently have done nothing for themselves. Remember there is merit and honor in any honorable legitimate work no matter how menial, and he who performs well every duty and shrinks from no task be it ever so humble, will win applause from all candid and intelligent people. The teachers calling is a noble one and a thorough preparation for the work adds nobility and dignity so the position. We feel called upon to remind teachers once more of the imperfect manner in which the registers are kept or filled out by them. We cannot make a correct State report unless we have a correct register, and our Supt. of Public Instruction will not accept of an imperfect report, hence the importance of a correct register. Then we draw our literary fund from the number of scholars between certain ages, and if not acurately reported we suffer loss in not getting our share of the fund.

No teacher is entitled to pay for services as teacher until a correct register is returned to the board of Education, and in the future it will be with-held until we do get a perfect register.

Harmony has prevailed throughout the district and no one has been very much out of sorts so far as we know with the management of the school affairs, and we extend our thanks to the people for the aid they have given us.

Wishing a bright future for our schools, we close our report.

REPORT

—OF THE—

BOARD OF EDUCATION.

DISTRICT NO. 1.

The Board of Education of the School District No. 1 would respectfully report that they have had the usual good schools the past year.

At the close of the spring term Mr. W. L. Pettengill, teacher in the higher department for the past ten years resigned, and they were under the necessity of filling the situation which they did by procuring the services of Miss Anna M. Brown, of Gaysville, Vt., a Graduate of Goddard Seminary of Barre, Vt., and St. Lawrence Academy, N. Y., who has filled the position very acceptably.

The Primary department has been under Miss L. M. Williams instructions, who has been with the school the past ten years and we think it needless to say more. As a teacher in a primary school who has remained with it that length of time, is a sufficient recommendation.
